Search: Tomcat Edge Scrubber  
Single Pass Stripping with only Water

- Chemical Free Floor Finish Removal
- Reduce Slip & Fall Potential
- Up to 70% Reduction in Water/Soap Usage
- Clean into Corners with Unique Head
- 2 Speeds = Scrubbing or Stripping

# Family of Equipment **EDGE** Series

## BUILDING CONTRACTOR

Eliminate the hassle and hazards of extension cords with an industry first; Tomcat's cordless EDGE floor machines. Available in 28" and 32" paths they offer operators all of the performance of our EDGE Scrubbers, but without any of the cost or maintenance of a traditional automatic scrubber. Designed and built for those who specifically need the benefit of chemical free stripping, but who prefer daily cleaning with traditional automatics.

## RETAIL

The traction drive **MICROMAG** walk behind scrubber brings Tomcat's renowned toughness into the smallest category to date. The compact length allows the 20" scrubbers to maneuver into congested areas, and it's unique design keeps the scrub brush well protected. The 10 gallon solution and recovery tank tips back for easy scheduled maintenance, and the thick steel frame and heavy duty components keep this scrubber working long after others have been discarded. This battery scrubber has a recovery tank that permits complete flushing with full access to the tank's interior and improved sanitation.

## GROCERY

Tomcat's **MINIMAG** battery scrubber is designed to offer customers with smaller areas the scrubbing performance and durability of our larger Magnum. This floor scrubber has a heavy duty steel frame, powder painted of course for longevity. The scrubber's 17 gallon tanks and two scrub paths (20" or 28"), make it ideal for many customers with congested areas to strip and scrub. Built with stainless fasteners, heavy duty motors, strong casters and quality batteries, the Tomcat small scrubber delivers high performance in a highly maneuverable package.

## WET SCREEN WOOD FLOORS

The **MAGNUM** is our larger walk behind chassis and can be equipped with the 28" or 32" Edge head. With the unique Edge head it is capable of daily scrubbing with only 1/3 of the water usage of old fashioned disk scrubbers. It's oscillating head doesn't fling dirty water like many traditional scrubbers, and can quickly prep floors for recoat.

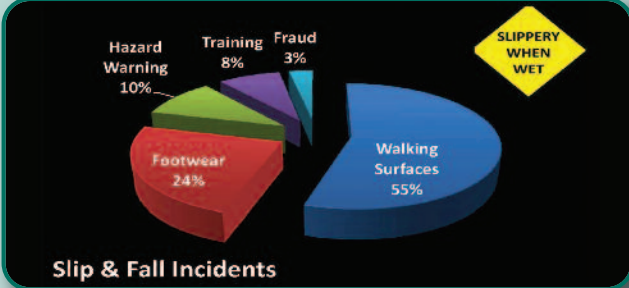

## HEALTH CARE

One of the first companies to offer the oscillating head on a micro rider scrubber, Tomcat **GTX** comes with the 28" or 32" Edge head. This battery floor scrubber offers all of the features of our other Edge scrubbers, but in a rider platform. The 2700 rpm head is able to strip floor finish for quick recoats when necessary. The unique rectangular head, which oscillates in a 1/4" diameter pattern, leaves a more consistent pattern on the floor and is easy enough for novices to use. The **GTX** offers "Rider Productivity" in a footprint the size of most walk behinds.

# Be GREEN and Save GREEN \$\$ with *EDGE*

- **Chemical Free Stripping:** Help the environment while saving money and just use water to remove floor finish. The EDGE system combined with our maroon "Prep Pad" prepare a floor for quick and easy recoat.
- **Up to 70% Reduction in Water/Soap Usage:** Edge's unique oscillating head doesn't fling water away from the cleaning area, so less water/soap is required to clean, increasing operator productivity.
- **Increased Run Time:** The unique oscillating system on Edge uses less energy than disk units for longer run time per charge.

**Reduce Slip & Fall:** By eliminating chemical stripper one can easily reduce the potential for Slip and Fall accidents and improve employee/customer safety.

**Square vs. Round:** Edge's rectangular shape offers equal dwell time across pad width, unlike round pads. The square corner allows Edge to clean into corners and against baseboards better than round pads.

## New Generation of "Oscillating" Durability

2 Speed Heavy Duty Motor

- *Low rpm to SCRUB & High rpm to STRIP*
- *Oversized Bearings & Iron end housing*

**SOLD THROUGH DISTRIBUTORS**

We've built our reputation by providing the toughest, best-engineered, highest-value machines our industry can produce. We make sure that in every market in which our more than 350 distributors in 36 countries and service centers do business, they maintain a "factory" trained service department with a vested interest in our customers long-term satisfaction.

TOMCAT offers a line of cleaning equipment that includes sweepers and scrubbers, in both walk-behind and ride on models. All our models are practical, rugged machines that are sensibly priced. Your local dealer will be happy to assist you with rentals, soap, and floor sealer information. They will gladly provide service on all brands of cleaning equipment.

**RETURN ON INVESTMENT**
